

The image features a large, bold, green 'SCHOLZ' logo at the top, set against a background of a blue sky with white clouds. Below the logo is a solid green horizontal bar containing the text 'BAUMSCHUL - GMBH' in white. The bottom half of the image shows a row of tall, conical evergreen trees in a field of tall grass under a cloudy sky.

SCHOLZ

BAUMSCHUL - GMBH

Bad Zwischenahn
Germany

- Registered in German Nursery Farm Association BdB
- Founder: Georg Scholz
- Establish date: 1976
- Area (hectares): 20 ha (outdoor growing) + trading site
- Located in the region of Oldenburg (500 nurseries and 4000 ha of nursery production)

We are specialized in growing varietal semidwarf conifers and grow winter-hardy varieties for Russian market.

Principal species of our nursery:

- White Fir (*Abies concolor*)
- Subalpine Fir (*Abies lasiocarpa*)
- Korean Fir (*Abies koreana*)
- Norway Spruce (*Picea abies*)
- Serbian Spruce (*Picea omorica*)
- Blue Spruce (*Picea pungens*)
- White Pine (*Pinus strobus*)
- Mountain Pine (*Pinus mugo*)
- Siberian Dwarf Pine (*Pinus pumila*)
- Different species of Thuja, Tsuga, Rhododendron, Amelanchier and Acer

- We replant our trees every 4 years to obtain the highest quality of a root system.
- We maintain proper row spacing for good light permeability.
- Regular pruning for proper crown shaping.
- Appropriate application of fertilizers for every type of plants.
- Drip irrigation system.
- Increased root ball size for better establishment in severe climate conditions.
- We use special digging and loading technics and exclude damage of plants within transportation.

Loading and transportation

SCHOLZ

Питомник Шольц

- Volume of export: 50%.
- Countries of export:
 - Russia – 80% of total export volume
 - Belarus
 - Poland

- We cooperate with a big number of plant nurseries in Germany.
- Our clients can choose plants not only in our nursery, but also in nurseries of our partners.
- Our clients can see the plants growing and choose any interesting ones.
- After the order we'll organize the loading from our partner's nurseries and fill all the transportation documents. One CMR document for one truck loaded in different nurseries.
- We offer a good quality of plants with a comparable price.

Advantages of working with us.

- Working with only one partner, You can choose plants from a big number of nurseries.
- We can extend our assortment, as our clients wish.

With our partner's nurseries we offer:

- Coniferous two-year seedlings
 - Different shrubs
 - Trees for parks
 - Roses and stem-grafted roses
 - Bunch-formed trees
 - Varietal grafted dwarf and semidwarf coniferous
 - Varietal conifer trees
 - Fruit trees
 - Ground-covers
 - Climbing plants
 - Rhododendrons
-
- Our clients can save the time – we know, where to buy the plants they're interested in.
 - We can work with typical order-lists and complex orders.
